Ms. Thompson,

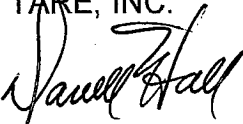

To follow are the responses to your Notice of Violation Letter dated February 22, 2011 for the subject sand quarry.

1. Discharge Monitoring Reports have should have indicated that Basin 002 and 003 have not been constructed. Discharge Monitoring Reports had not been submitted for DMP 002 and DMP 003 at the subject site in prior reports. From this point forward these DMP's will be included in the required quarterly monitoring reports.
2. The down grade slopes at the Basin 003 location will be seeded and mulched to establish stabilization.
